1. According to [REDACTED] who has recently handled ball bearings of Soviet manufacture, the quality of this Soviet product is very low. Twenty such bearings failed after less than one hour of normal usage. More than half of the Soviet ball bearings purchased have been rejected because of poor quality.
2. The Rumanian authorities are attempting to purchase Swedish bearings through Switzerland, but cannot secure quantities sufficient to meet the demand. Bearings obtained through Switzerland have been secured at a very unfavorable rate of exchange, reportedly 400 lei to the dollar.

This document is hereby regraded to  
CONFIDENTIAL in accordance with the  
letter of 13 October 1978 from the  
Director of Central Intelligence to the  
Archivist of the United States.
